## 1. Aims

The aims of our first aid policy are to:

- Ensure the health and safety of all staff, pupils and visitors
- Ensure that staff are aware of their responsibilities with regards to health and safety
- Provide a framework for responding to an incident and recording and reporting the outcomes

## 2. Legislation and guidance

This policy which complies with our funding agreement and articles of association is based on the [EYFS statutory framework for group and school-based providers](#), advice from the Department for Education on [First aid in schools, early years](#) and health and safety in schools, guidance from the Health and Safety Executive (HSE) on [Incident reporting in schools \(accidents, diseases and dangerous occurrences\)](#), the Trust First Aid Policy and the following legislation:

- [The Health and Safety \(First-Aid\) Regulations 1981 \(Guidance\)](#), which state that employers must provide adequate and appropriate equipment and facilities to enable first aid to be administered to employees, and qualified first aid personnel
- [The Management of Health and Safety at Work Regulations 1992 \(Guidance\)](#) which require employers to make an assessment of the risks to the health and safety of their employees
- [Reporting of Injuries, Diseases and Dangerous Occurrences Regulations 2013 \(Guidance\)](#), which state that some accidents must be reported to the Health and Safety Executive (HSE), and set out the timeframe for this and how long records of such accidents must be kept
- [The Social Security \(Claims and Payments\) Regulations 1979](#) which set out rules on the retention of accident records

## 3. Roles and responsibilities

In schools with Early Years Foundation Stage provision, at least 1 person who has a current paediatric first aid (PFA) certificate must be on the premises at all times.

Beyond this, in all settings – and dependent upon an assessment of first aid needs – employers must usually have a sufficient number of suitably trained first aiders to care for employees in case they are injured at work. However, the minimum legal requirement is to have an ‘appointed person’ to take charge of first aid arrangements, provided your assessment of need has taken into account the nature of employees’ work, the number of staff, and the layout and location of the school. The appointed person does not need to be a trained first aider.

Section 3.1 below sets out the expectations of appointed persons and first aiders as set out in the 1981 first aid regulations and the DfE guidance listed in section 2.

### 3.1 Appointed person(s) and first aiders

The school’s appointed persons are:

Mrs Bass

Miss Dungey

Mrs Collins

Mrs Scott They are responsible for:

- Taking charge when someone is injured or becomes ill
- Ensuring there is an adequate supply of medical materials in first aid kits, and replenishing the contents of these kits
- Ensuring that an ambulance or other professional medical help is summoned when appropriate

First aiders are trained and qualified to carry out the role (see section 7) and are responsible for:

- Acting as first responders to any incidents; they will assess the situation where there is an injured or ill person, and provide immediate and appropriate treatment
- Sending pupils home to recover, where necessary
- Filling in an accident report on the same day, or as soon as is reasonably practicable in line with the Trust accident reporting procedures (see Appendix 2)
- Keeping their contact details up to date

First Aiders are listed in appendix 1. Their names will also be displayed prominently around the school.

## **3.2 The governing board (Sapientia Education Trust)**

The governing board has ultimate responsibility for health and safety matters in the school, but delegates operational matters and day-to-day tasks to the headteacher and staff members.

## **3.3 The headteacher**

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that an appropriate number of appointed persons and/or trained first aid personnel are present in the school at all times
- Ensuring that first aiders have an appropriate qualification, keep training up to date and remain competent to perform their role
- Ensuring all staff are aware of first aid procedures
- Ensuring appropriate risk assessments are completed and appropriate measures are put in place
- Undertaking, or ensuring that managers undertake, risk assessments, as appropriate, and that appropriate measures are put in place
- Ensuring that adequate space is available for catering to the medical needs of pupils
- Reporting specified incidents to the Trust when necessary (see section 6)

## **3.4 Staff**

School staff are responsible for:

- Ensuring they follow first aid procedures
- Ensuring they know who the first aiders and/or appointed person(s) in school are
- Completing accident reports as required
- Informing the headteacher or their manager of any specific health conditions or first aid needs

# **4. First aid procedures**

## **4.1 In-school procedures**

In the event of an accident resulting in injury:

- The closest member of staff present will assess the seriousness of the injury and seek the assistance of a qualified first aider, if appropriate, who will provide the required first aid treatment
- The first aider, if called, will assess the injury and decide if further assistance is needed from a colleague or the emergency services. They will remain on the scene until help arrives
- The first aider will also decide whether the injured person should be moved or placed in a recovery position
- If the first aider judges that a pupil is too unwell to remain in school, parents will be contacted and asked to collect their child. Upon their arrival, the first aider will recommend next steps to the parents
- If emergency services are called, the school office will contact parents immediately
- The first aider/relevant member of staff will complete an accident report form on the same day or as soon as is reasonably practical after an incident resulting in an injury but no later than 48 hours after the incident. If an accident happens on a Friday the latest the report should be submitted is the following Monday.

## 4.2 Off-site procedures

When taking pupils off the school premises, staff will ensure they always have the following:

- A school mobile phone
- A portable first aid kit including, a a minimum:
  - A leaflet giving general advice on first aid
  - 6 individually wrapped sterile adhesive dressings
  - 1 large sterile unmedicated dressing
  - 2 triangular bandages – individually wrapped and preferably sterile
  - 2 safety pins
  - Individually wrapped moist cleansing wipes
  - 2 pairs of disposable gloves
- Information about the specific medical needs of pupils
- Parents' contact details

When transporting pupils using a minibus or other large vehicle, the school will make sure the vehicle is equipped with a clearly marked first aid box containing, at minimum:

- 10 antiseptic wipes, foil packed
- 1 conforming disposable bandage (not less than 7.5cm wide)
- 2 triangular bandages
- 1 packet of 24 assorted adhesive dressings
- 3 large sterile unmedicated ambulance dressings (not less than 15cm x 20 cm)
- 2 sterile eye pads, with attachments
- 12 assorted safety pins
- 1 pair of rustproof blunt-ended scissors

Risk assessments will be completed by the trip leader prior to any educational visit that necessitates taking pupils off school premises.

There will always be at least 1 first aider on school trips and visits.

## 5. First aid equipment

A typical first aid kit in our school will include the following:

- A leaflet giving general advice on first aid
- 20 individually wrapped sterile adhesive dressings (assorted sizes)
- 2 sterile eye pads
- 2 individually wrapped triangular bandages (preferably sterile)
- 6 safety pins
- 6 medium-sized individually wrapped sterile unmedicated wound dressings
- 2 large sterile individually wrapped unmedicated wound dressings
- 3 pairs of disposable gloves

No medication is kept in first aid kits.

First aid kits are stored in:

- The medical room
- Science lab prep room
- All design and technology classrooms
- Food tech room
- The school kitchens
- School vehicles

## 6. Record-keeping and reporting

### 6.1 First aid and accident record book or online form

- An accident form will be completed by the first aider/relevant member of staff on the same day or at the latest within 48 hours after an incident resulting in an injury
- As much detail as possible should be supplied when reporting an accident, including all of the information requested in the relevant accident form
- A copy of the accident report form/details of the accident, will also be added to the pupil's educational record by the Office Team.
- Records held in the online first aid/accident reporting system will be retained by the Trust for a minimum of 7 years (adults aged 18+) or 25 years from date of birth (pupils), and will then be securely disposed of.

### 6.2 Reporting to the HSE

The Health and Safety department at the Trust will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The Health and Safety department will report these to the HSE as soon as is reasonably practicable and in any event within 10 days of the incident – except where indicated below. Fatal and major injuries and dangerous occurrences will be reported without delay (i.e. by telephone) and followed up in writing within 10 days.

## **School staff: RIDDOR reportable injuries, diseases or dangerous occurrences**

These include:

- Death
- Specified injuries, which are:
  - Fractures, other than to fingers, thumbs and toes
  - Amputations
  - Any injury likely to lead to permanent loss of sight or reduction in sight
  - Any crush injury to the head or torso causing damage to the brain or internal organs
  - Serious burns (including scalding) which:
    - Covers more than 10% of the whole body's total surface area; or
    - Causes significant damage to the eyes, respiratory system or other vital organs
  - Any scalping requiring hospital treatment
  - Any loss of consciousness caused by head injury or asphyxia
  - Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours
- Work-related injuries that lead to an employee being away from work or unable to perform their normal work duties for more than 7 consecutive days (not including the day of the incident). In this case, the Health and Safety Department will report these to the HSE as soon as reasonably practicable and in any event within 15 days of the accident
- Occupational diseases where a doctor has made a written diagnosis that the disease is linked to occupational exposure. These include:
  - Carpal tunnel syndrome
  - Severe cramp of the hand or forearm
  - Occupational dermatitis, e.g. from exposure to strong acids or alkalis, including domestic bleach
  - Hand-arm vibration syndrome
  - Occupational asthma, e.g from wood dust
  - Tendonitis or tenosynovitis of the hand or forearm
  - Any occupational cancer
  - Any disease attributed to an occupational exposure to a biological agent
- Near-miss events that do not result in an injury but could have done. Examples of near-miss events relevant to schools include, but are not limited to:
  - The collapse or failure of load-bearing parts of lifts and lifting equipment
  - The accidental release of a biological agent likely to cause severe human illness
  - The accidental release or escape of any substance that may cause a serious injury or damage to health
  - An electrical short circuit or overload causing a fire or explosion

## **Pupils and other people who are not at work (e.g. visitors): RIDDOR reportable injuries, diseases or dangerous occurrences**

These include:

- Death of a person that arose from, or was in connection with, a work activity\*
- An injury that arose from, or was in connection with, a work activity\* and the person is taken directly from the scene of the accident to hospital for treatment

\*An accident “arises out of” or is “connected with a work activity” if it was caused by:

- A failure in the way a work activity was organised (e.g. inadequate supervision of a field trip)
- The way equipment or substances were used (e.g. lifts, machinery, experiments etc); and/or
- The condition of the premises (e.g. poorly maintained or slippery floors)

## 7. Training

All school staff are able to undertake first aid training if they would like to.

All first aiders must have completed a training course and must hold a valid certificate of competence to show this. The school will keep a register of all trained first aiders, what training they have received and when this is valid until (see appendix 3).

The school will arrange for first aiders to retrain before their first aid certificates expire. In cases where a certificate expires, the school will arrange for staff to retake the full first aid course before being reinstated as a first aider.

At all times at least 1 staff member onsite will have a current first aid certificate (Either 1-day EFAW or 3-day FAW). The certificate will be renewed every 3 years.

## 8. Monitoring arrangements

This policy will be reviewed by the appointed person for first aid. At every review, the policy will be approved by the Headteacher.

## 9. Links with other policies

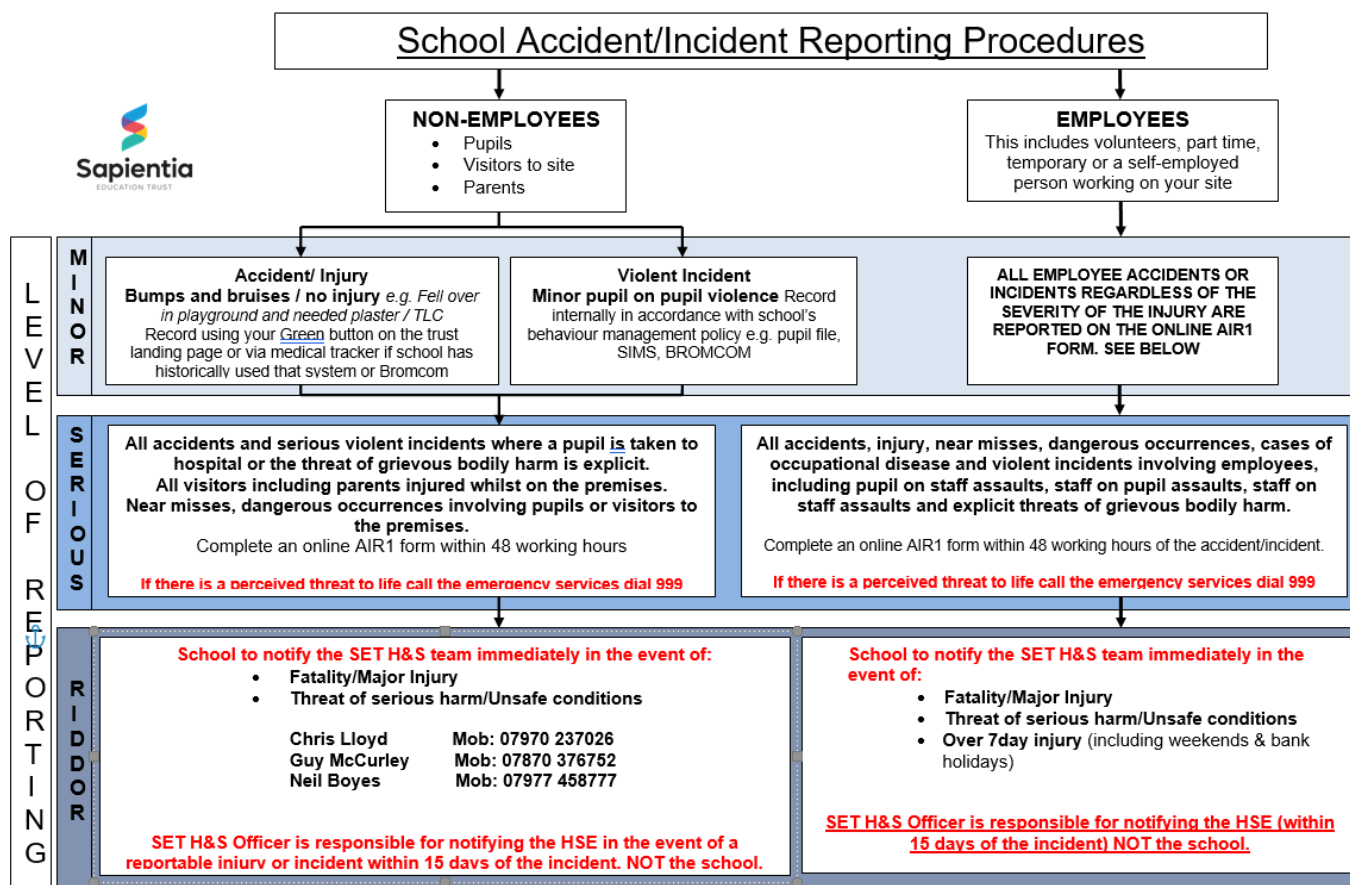

This first aid policy is linked to the:

- Accident/Incident reporting policy
- Allergies and Anaphylaxis
- Emergency Salbutamol Inhaler policy
- Trust First Aid Policy
- Health and safety policy
- Managing medicines
- Risk assessment policy
- Policy on supporting pupils with medical conditions
